CZ -R Unit Activation Procedure

Carbon Zapp -R Unit
Activation Procedure

Requirements:
   Machine, PCB, Tablet Serial Numbers >> Send first to CarbonZapp
      USB Drive
      .acf file << Received from CarbonZapp

When the following message appears, send the listed Serial Numbers to Carbon Zapp support, in order to receive the .acf file. If the PCB (Board) S/N is unknown, remove the panel of the PCB board, the S/N is printed on:

1. Save the .acf file on the root folder of the USB drive (e.g. D:\activation_000000001.acf)
   - **IMPORTANT: Do NOT rename the file**
   - **IMPORTANT: Verify that the file on the USB ends in .acf, but NOT in .ACF (not capitals)**
   - **IMPORTANT: Verify the USB has ONLY 1 .acf file in it**
2. Connect the USB Drive to the unit
3. Goto **Home >> Settings >> Info >> Activation Code Status And Update** and select **Activate from USB**

Below are some help screens for navigation purposes:
